

LADY OF THE ARMY: THE LIFE OF MRS. GEORGE S. PATTON

REVIEWS (bit.ly/3UqraB5)

"A masterpiece of seminal research, *Lady of the Army* is an extraordinary, detailed, and unique biography of a remarkable woman married to a now legendary American military leader in both World War I and World War II." —**Midwest Book Review**

"A unique book in the military biography field, Van Steelandt does a masterful job detailing the life of Beatrice Ayer Patton ... *Lady of the Army* is an enjoyably readable book about an important woman of the 20th century, as well as an academic book with extensive references and background." —**Ross Rojek, *Manhattan Book Review***

"General George S. Patton is one of the most studied military leaders in history ... but now comes a unique book that completes the story of Patton the man and the warrior. It is not an exaggeration to write *Lady of the Army* is the most complete study ever undertaken to chronicle the life and times of Beatrice Patton, and owing to Van Steelandt's extensive research, it will also rank as a first-rate look at the life and career of General George S. Patton. This book is magnificent and a literary triumph!" —**Brian M. Sobel, Author of *The Fighting Pattons***

"Stefanie Van Steelandt brought Beatrice Ayer Patton back to life as a multifaceted person with so many talents that she could not be appreciated fully if she were only known as "Mrs. George". Although she makes very clear that Beatrice was most dedicated to supporting her husband and his stature, there was much more to her than loyal devotion. I consider Stefanie's book to be a triumph, for taking on a worthy subject as no other author or researcher has, and for having the courage to do it as a first-time writer." —**Joanne Holbrook Patton**

"A magisterial recounting of the life of George S. Patton's wife Beatrice, Stefanie van Steelandt's *LADY OF THE ARMY* offers a frank and sympathetic portrait of the woman behind the general." —**Craig Jones, for *IndieReader***
